Non-Audit Services Policy

1. Scope and Purpose

The policy covers the engagement of External Auditors to supply Non-Audit services. The objectives of the policy are to:

- Ensure that the provision of non-audit services does not impair the external auditor's independence or objectivity;

- Establish a straightforward and transparent process and reporting to enable the Audit and Risk Committee to monitor policy compliance;
- Avoid unnecessary restrictions on the purchase of services from the External Auditors where they are able to demonstrate provisions of a higher quality and more cost effective service than other providers.

2. Principles

In all services purchased, Key Alliance Group Berhad's objective is to select the provider who is best placed to deliver the service in terms of quality and cost. It is recognized that the knowledge of key areas of the Group gained by the External Auditors through the performance of their statutory audit work may enable them to be well placed to provide valuable services to the Group in respect of these areas.

In order to retain the option of utilizing the External Auditors to provide non-audit services where it is in the Group's best interests to do so, a number of criteria have to be met. These are so that the External Auditors do not:

- Audit their own work;
- Make management decisions for the Group;
- Create a conflict of interest;
- Find themselves in the role of advocate for the Company.

To ensure that the provision of non-audit services does not impair the external auditor's independence or objectivity, the Audit and Risk Committee should consider the following:

- Whether the skills and experience of the audit firm make it the most suitable supplier of the non-audit service;
- Whether there are safeguards in place to eliminate or reduce to an acceptable level any threat to objectivity and independence in the conduct of the audit resulting from the provision of such services by the external auditor;
- The nature of the non-audit services;
- The fees incurred, or to be incurred, for non-audit services both for individual services and in aggregate, relative to the audit fee; and
- The criteria which govern the compensation of the individuals performing the audit.

3. Types of service

Restricted services from our External Auditors will be divided into three categories:

- (h) Corporate finance and similar activities where there is a significant advocacy role;
- (i) Contingent fee services on material projects;
- (j) Transaction related services where there is a significant advocacy role;
- (k) Restructuring services which would involve the audit firm undertaking a management role, or the engagement would require the audit firm to act as an advocate for the audited entity in relation to matters that are material to the financial statements;
- (l) Any additional services prohibited by legislation or regulation.

Category 2 – Those services provided by External Auditors where prior authorisation of the Audit and Risk Committee will be require and where additional safeguards may need to be put in place. These services will be those which, because of their size and nature or because of special terms and conditions, are thought to potentially give rise to threats to the auditor’s independence.

Service	Guidance
<p>Taxation services where advice given or position taken is material to the financial statements or where there is a high degree of uncertainty – e.g. with a ‘ground breaking scheme’</p>	<p>Such assignments are generally not seen to create threats to independence though it is necessary to assess and react to potential threats. Safeguards may include the following:</p> <ul style="list-style-type: none"> • Ensuring Management has sufficient knowledge to take responsibility for the outcome of the service; • Obtaining an additional independent third party opinion.
<p>Internal Audit services where acting under the instruction of Internal Audit management.</p>	<p>The guidance provides that it is only considered acceptable to provide internal audit services where there are specific safeguards. Policy on Assessing the Internal Auditor

Internal auditors focus on risks and controls within the company and therefore they have a key role in a company's governance and financial reporting process. They should provide independent and objective opinion as to whether risks which may hinder the company from achieving its objectives are being adequately evaluated, managed and controlled. Internal auditors can also advise and advocate improvements to enhance organizational governance structure and practices.

Definition of Internal Audit by the Institute of Internal Auditors:

“Internal auditing is an independent, objective assurance and consulting activity designed to add value and improve an organization’s operations. It helps an organization accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes.”

This definition highlights the independence and objectivity of internal auditing with respect to both assurance services and consulting.
